

QUALITY ASSURANCE ENGINEER **Boston (Woburn), MA**

Aptima, Inc. currently has a position open for a QA Engineer to support quality assurance tasks during the full life-cycle development on new and existing projects. We are looking for a highly motivated, intelligent professional with 1-3 years of relevant experience in software QA practices.

Specific responsibilities will include:

- Defense of quality standards during the requirements analysis, design, implementation, and testing phases of projects
- Mentoring project teams in quality improvement practices
- Test of software written in C#, .Net, C++, Java, Python, SQL, Visual Basic

Minimum Requirements:

- BA/BS degree in Computer Science or related field of engineering or quality management
- One to three years experience in software QA
- Strong analytical, problem identification and reporting skills
- Excellent communications skills (verbal and written)
- U.S. Citizenship
- Must be able to obtain Secret security clearance

Strong candidates will be able to demonstrate experience with:

- Mentoring project teams on QA best practices
- Track record in testing and shipping complex software products
- Troubleshooting software and hardware configuration problems
- Test suite development and execution, and automated testing tools
- Developing, implementing and adhering to QA/release processes
- Testing methodologies including regression, black box, white box, functional, structural, load, and performance testing
- Software life cycle stages including requirements analysis, design, implementation, and testing phases

Experience with any of the following a plus:

- Agile software development process
- SBIR- and/or DOD-related software projects
- Relational databases
- C#, C++, Java, Python, VB, XML, Web technologies, scripting languages
- User interface design and GUI development
- Distributed interactive simulation applications or environments (working knowledge of HLA/DIS)

Aptima will not compensate applicants for any travel or relocation expenses to fill this position. All applicants must be willing to work onsite in Aptima's Boston (Woburn), MA, office location, Monday through Friday (no telecommuting or compressed schedules). Qualified candidates should submit a cover letter and resume aptima_personnel@aptima.com.

All applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information.
